

Automotive & Manufacturing

Customizable Solutions for Higher Production Flexibility

Using the latest technology, we deliver cutting-edge, customizable systems and solutions to meet today's needs and grow with tomorrow's demands

Increased Productivity & Precise Automation Solutions

We design reliable automation solutions for sequencing of components and precise material handling systems to deliver maximum uptime and greater productivity

Advantages

We help reduce costly downtime and keep your system operating at maximum efficiency. Mainway's ongoing lifecycle support and post installation preventative maintenance programs will keep your operations flowing

Benefits

- Maximum reliability
- Increased productivity
- Reduced operational costs
- Customized solutions
- Minimum downtime
- Greater production flexibility

Solutions

- Direct trailer loading/unloading
- Sequencing and picking systems
 - Assembly lines
 - Gravity bin tipplers
- Custom designed equipment
- Robotic and dedicated palletizers
